## Water Sports Survey

Jackson surveyed students about what water sports they participated in. The results of the survey of 200 boys and 150 girls are shown in the table below.

Water Sport	Boys	Girls
<b>Surfing</b>	6%	2%
<b>Swimming</b>	62%	76%
<b>Sailboarding</b>	4%	2%
<b>Waterskiing</b>	14%	14%

Jackson gathered the data and came to the conclusion that more girls participated in swimming than boys. Do you agree with Jackson? Justify your answer.
