

Think about it...

Ali is knitting a scarf that will be 2 meters long. So far, she has knitted $1 \frac{2}{10}$ meters.

Use pictures and words to show your thinking. Remember to state:

My answer is...

I got my answer by...

I know I am right because...

a) How many more *meters* does Ali need to knit? Write the answer as a fraction and as a decimal?

b) How many more *centimeters* does Ali need to knit?
