

Peer Feedback Argument Frame

<p><u>Problem:</u></p> <p><i>Juan is eating 4 pieces of pizza and Carlos is eating 3. There are no pieces left in the pizza. They shared one whole pizza. Natalie said that Juan ate more than Carlos, but Isabel said they had the same amount. Who is correct? How do you know?</i></p> <p>State your claim and then use this organizer to write an argument that supports your claim.</p>	<p><u>Mathematical Principle or Vocabulary:</u></p>
